

Appendix Q: Outpatient Therapy Payments by Provider Specialty Type* Tables

Discussion of these tables is located in Sections 5.2.2 and 5.3 of this report.

Note: Variations in gross non-institutional provider payments compared with the national totals listed in this Appendix are an artifact of a negligible number of claims that could not be classified as either PT or OT in private practice, physician, or non-physician. National totals include these claim payments.

* Provider specialty type was identified from National Claims History (NCH) data as follows:

1. Institutional claims lines containing revenue center 042x and non-institutional claim lines with provider specialty = 65 are 'Physical Therapy.'
2. Institutional claims lines containing revenue center 044x are 'Speech-Language Pathology.' Non-physician specialty provider numbers are not issued to SLPs.
3. Institutional claims lines containing revenue center 043x and non-institutional claim lines with provider specialty = 67 are 'Occupational Therapy.'
4. Institutional claim lines containing 'always therapy' HCPCS not in therapy revenue centers, and non-institutional claim lines containing 'always therapy' HCPCS but having provider specialties other than 65 or 67 are 'Other Therapy.'
